SUBJECT: THREE RIVER REGATTA - PITTSBURGH

Point State Park has a capacity of 70,000. This is where the bulk of the activities occur. The fireworks would be fired across from the park where the three rivers come together. The bluffs provide additional viewing opportunities.

City Parks expects to draw 70,000 people to the Park and states an additional 20,000-30,000 spectators will line the bluff of the rivers to view the fireworks.
